Dr. Paula Howard
 Deputy Superintendent of Schools

Dear Parent(s)/Guardian(s):

The Orange Public Schools is offering a 4-week First Lego Robotics Summer Camp to students advancing to **Grades 5 - 8**. FIRST LEGO introduces students to real-world engineering challenges by building LEGO-based robots to complete tasks on a thematic playing surface. District staff will assist students with the technical design elements as well as the execution of the robotics curriculum. The First Lego Robotics Summer Program will provide students with the opportunity to (1) design, build, test and program robots using LEGO EV3® technology, (2) apply real-world math and science concepts, (3) research challenges facing today's scientists, (4) learn critical thinking, team-building and presentation skills, and (5) participate in tournaments. For returning students, these concepts will be explored at a greater depth. If you and your child are interested, please complete the form below and return to your child's school by **Friday, June 2, 2017**. Please note seats are limited. Thank you.

Location: Rosa Parks Community School
Date(s): July 5 - Jul 27, 2017
Time: 9:00 am – 12:00pm (Monday -Thursday)

Parent/Guardian.	Contact Number.
Student's Name.	Student's Grade Level.
Student's School.	

	Yes	No
I have received and read the above information and my child will be participating in the Orange Public Schools First Lego Robotics Summer Camp @ Rosa Parks!		

Dear Student,

In the space provided, please explain why you'd like to be a part of this summer experience.
