

**Welcome to 4<sup>th</sup> grade! I am so excited to be your child's math teacher this year. Fourth grade is such an important time as students strengthen their foundational skills and begin exploring more complex math concepts like multi-digit multiplication, fractions, geometry and problem solving strategies.**

**My goal is to make math engaging, challenging, and fun, while also building your child's confidence as a problem solver. Together, we will create a classroom where students feel encouraged to ask questions, make mistakes and celebrate growth. Communication is key to success, so please don't hesitate to reach out with questions or concerns. I look forward to partnering with you to support your child's learning journey.**

**Here's to a wonderful school year of growth and discovery.**
