Good Day Staff and Community,

I write to address recent information received today regarding the current COVID-19 pandemic and its impact on our school community. We informed you on June 15<sup>th</sup> that there was a COVID-19 positive case. Today, we received documentation that in fact the positive COVID-19 reading was a false positive. With that being said, there was not COVID-19 positive case in our school district. We apologize for any inconvenience this may have caused. Our intent was to move forward with the information given and provide health as well as safety for all students and staff.

Given the nature of this pandemic, we continue to trust that the Orange Health Department will guide the community through whatever processes are necessary at this time. The Orange Township Public School District will continue to work closely with public health officials, assist in any manner possible, and keep our school community well-informed.

We are in this together as a school community. Your continued resilience during this pandemic has been noticed and certainly appreciated. In Orange, we are one team and are certainly built strong. In closing, please stay safe and know we are here for you.

Educationally yours,

*Gerald Fitzhugh, II, Ed.D.*
