

# 2021-2022 School Board Goals

**In order to be the most effective team, we must:**

- Break down the barriers between school board and community
- Listen to the communities needs
- Create a professional learning community amongst ourselves

**By attaining the below three goals, our hope is to increase School Board Meeting attendance and engagement.** This will allow us to better understand our community needs and work together with families towards creating a top tier school district.

**Goal #1:** Board members will attend at least two professional development workshops in the 2021-2022 school year. (One mandatory and one non-mandatory)

- Each board member will turn-key their workshop in an executive team meeting.
- Board members will share workshops that are beneficial to our school board

**Goal #2:** Board members will host three community engagement events in the 2021-2022 school year in order to engage the community and gather community needs.

- Potentially host an event in September, January, and May

**Goal #3:** Each board member will attend at least two Parent Council Meetings in the 2021-2022 school year.

- A meeting schedule will be created and each board member will indicate the two meetings they plan to attend for the year.
