BASIC PROCEDURES

Entering the classroom

You are expected to be in the classroom and seated with all materials *when* the bell rings. Instructions for warm-up activities will be provided on the front board every day. You must be on time for class, or have a pass excusing your tardiness.

Exiting the classroom

You are dismissed from class when I dismiss you, not when the bell rings. Before I dismiss the class, you need to be seated quietly and your area must be clean.

Restroom/drink/locker passes

You are expected to use the restroom, get a drink, and visit your locker before and after school, and during lunch -- *NOT during instructional time*. Please limit any trips keeping you away from instruction.

Extra help

As your teacher, my main purpose is to help you succeed during your 5th grade year and beyond. If you feel like you need extra help outside of our regular class time, *please let me know!* I am available for additional help when you put forth the effort and take the initiative to further your understanding.

FINAL TIPS FOR SUCCESS

- Bring *all* needed materials to class every day.
- If you are unsure about something, **ASK!!!**
- Show *respect* through your words and actions.
- You will enjoy class a million times more if you actively *participate*.

I realize this seems like a lot of information to take in on the first day of school -- do not get overwhelmed! During the first few weeks of school, we will work on establishing routines, staying organized, and being successful in groups. I am looking forward to being your teacher this year and helping you succeed in school!
