

Steps for Parents to Access iRead from Home:

1. Copy and Paste link below to the web browser to view the Parent Portal.

<http://www.hmhco.com/products/iread/family/>

Welcome to the iRead Family Portal

www.hmhco.com

The iRead Family Portal provides families with the tools they need to stay connected to their children's work at school.

2. There is a log in area at the upper right part of the screen that will allow students to access the software.

3. Put in the zip code for Orange (07050) and select the Orange Public School District.

4. **Students** will then be asked to **log in** using their **username and password**. Students' usernames are their school ID number. Most students have memorized this number, if not the parent must ask the teacher for this number. Passwords are usually 123 or abc or 123abc. If the student does not know their password, this information will also have to be given to the parent by the teacher.

NOTE: The computer used at home must have Adobe Flash Player  to access the software.
