Overview: The Cisco Networking Academy IT Essentials curriculum introduces the technical skills needed to help meet the growing demand for entry-level IT professionals. The curriculum covers the basics of computers, mobile device hardware, and software, while introducing advanced security and networking concepts and the responsibilities of an IT professional. This program is an excellent opportunity for the youth to learn about computer architecture and to understand how all the different parts of a computer fit together, both physically and electronically. The curriculum offers the following features and benefits:

- Students develop working knowledge of how computers operate, how to assemble computers, and how to troubleshoot hardware and software issues.
- Updated relevant curriculum and labs are delivered in the Cisco Networking Academy learning environment and include new topics such as data centers and cloud computing.

PLANNING AN ADVENTURE

Session I * July 1-July 16 ...Grades 6-8

Session II * July 17-Aug 1 ...Grades 3-5

8:30a-12:00p (M-Th) AM ONLY

Location: OPA

Overview: Students will understand the difference between Virtual Reality and Augmented Reality and how they can be used for learning. Students will also learn how coding and programming can be used to support everyday real-world activities.

READY SET GO (FILM CAMP)

Session I * July 1-July 16

8:30a-12:00p (M-Th) AM ...GRADES 6-8 at OHS

12:30p-3:00p (M-Th) PM ...GRADES 3-5 at OHS

Session II * July 17-Aug 1

8:30a-12:00p (M-Th) AM ...GRADES 6-8 at OHS

12:30p-3:00p (M-Th) PM ...GRADES 3-5 at OHS

Location: *SEE ABOVE

Overview: Led by Digital Media high school film students and a teacher advisor, middle school students will learn storyboarding, basic filmmaking, editing, and production. On August 2, a screening of the independent films will be showcased.

WONDER AND EXPLORE
