

Dear Hooman Behzadpour:

Congratulations! Your Calculus BC course is now authorized to use the AP[®] designation for the 2019 - 2020 academic year at Orange High School.

What Does Course Authorization Mean?

It is the official recognition by the College Board that your course meets or exceeds the expectations colleges and universities have for AP Calculus BC. This authorization grants you permission to use the "AP" designation on your students' transcripts in association with the authorized course. In addition, your course will appear on the publicly available AP Course Ledger, and you will receive access to online score reports.

Thank you for your continued participation in the AP Course Audit.

Sincerely,

Trevor Packer
Senior Vice President
Advanced Placement Program
