In the first number they gave me, the 5 is in the tens place so its value is 50. I needed to find a number where the value of the 5 was times greater. <math>50 \times 10 = 500</math>, so I need to pick a number that has a 5 in the hundreds place. 6,502 has a 5 with a value of 500.”</p> |
