The Cosmetology II course is the foundation of the cosmetology education program. This course is designed to introduce the profession and the historical foundations of the field of cosmetology. This course will introduce the practical and theory application of shampooing, conditioning, scalp and hair care. Various career opportunities that are in the field of cosmetology will be discussed as well as legal and ethical considerations that cosmetology professionals may be faced with. Students will be trained in basic manipulative skills, safety judgements, proper work habits and desirable attitudes necessary to obtain gainful employment in the field of cosmetology or related careers. Subject areas covered include: History and Career Opportunities, Infection Control: Principles and Practices, Hair and Scalp Properties, Scalp Care, Shampooing, and Conditioning, Hair Service Preparation, Braiding and Braid Extensions, Hairstyling, Your Professional Image, Manicuring, Pedicuring, Communicating for Success and Life Skills. A student's class time will be a combination of theory and practical hands-on skills.

### **Scope and Sequence**

Timeline	Concepts
Unit 1	History and Career Opportunities (10 days) Infection Control: Principles and Practices (15 days) Hair and Scalp Properties (15 days)
Unit 2	Hair Service Preparation: Scalp Care, Shampooing, and Conditioning (15 days) Braiding and Braid Extensions (25 days)
Unit 3	Principles of Hair Design & Hairstyling (30 days) Your Professional Image(10 days) Manicuring (20 days)
Unit 4	Pedicuring (20 days) Communicating for Success (10 days) Life Skills (10 days)

## **21<sup>st</sup> Century Skills**

## NJSLS for Career Readiness, Life Literacies and Key Skills

An education in career readiness, life literacies, and key skills fosters a population that: continually self-reflects and seeks to improve the essential life and career practices that lead to success; uses effective communication and collaboration skills and resources to interact with a global society; possesses financial literacy and responsibility at home and in the broader community; plans, executes, and alters career goals in response to changing societal and economic conditions; and seeks to attain skill and content mastery to achieve success in a chosen career path.

#### By the end of Grade 12,

9.4 Life Literacies and Key Skills

#### Creativity and Innovation

9.4.12.Cl.1: Demonstrate the ability to reflect, analyze, and use creative skills and ideas (e.g., 1.1.12prof.CR3a).

9.4.12.Cl.2: Identify career pathways that highlight personal talents, skills, and abilities (e.g., 1.4.12prof.CR2b, 2.2.12.LF.8).

9.4.12.Cl.3: Investigate new challenges and opportunities for personal growth, advancement, and transition (e.g., 2.1.12.PGD.1).

#### Critical Thinking and Problem Solving

9.4.12.CT.1: Identify problem-solving strategies used in the development of an innovative product or practice (e.g., 1.1.12acc.C1b, 2.2.12.PF.3).

9.4.12.CT.2: Explain the potential benefits of collaborating to enhance critical thinking and problem solving (e.g.,

#### 1.3E.12profCR3.a).

9.4.12.CT.3: Enlist input from a variety of stakeholders (e.g., community members, experts in the field) to design a service learning activity that addresses a local or global issue (e.g., environmental justice).

9.4.12.CT.4: Participate in online strategy and planning sessions for course-based, school-based, or other projects and determine the strategies that contribute to effective outcomes.

#### Digital Citizenship

9.4.12.DC.1: Explain the beneficial and harmful effects that intellectual property laws can have on the creation and sharing of content (e.g., 6.1.12.CivicsPR.16.a).

9.4.12.DC.2: Compare and contrast international differences in copyright laws and ethics.

9.4.12.DC.3: Evaluate the social and economic implications of privacy in the context of safety, law, or ethics (e.g., 6.3.12.HistoryCA.1).

9.4.12.DC.4: Explain the privacy concerns related to the collection of data (e.g., cookies) and generation of data through automated processes that may not be evident to users (e.g., 8.1.12.NI.3).

9.4.12.DC.5: Debate laws and regulations that impact the development and use of software.

9.4.12.DC.6: Select information to post online that positively impacts personal image and future college and career opportunities. 9.4.12.DC.7: Evaluate the influence of digital communities on the nature, content and responsibilities of careers, and other aspects of society (e.g., 6.1.12.CivicsPD.16.a).

9.4.12.DC.8: Explain how increased network connectivity and computing capabilities of everyday objects allow for innovative technological approaches to climate protection.

#### Global and Cultural Awareness

9.4.12.GCA.1: Collaborate with individuals to analyze a variety of potential solutions to climate change effects and determine why some solutions (e.g., political. economic, cultural) may work better than others (e.g., SL.11-12.1., HS-ETS1-1, HS-ETS1-2, HS-ETS1-4, 6.3.12.GeoGI.1, 7.1.IH.IPERS.6, 7.1.IL.IPERS.7, 8.2.12.ETW.3).

#### Information and Media Literacy

9.4.12.IML.1: Compare search browsers and recognize features that allow for filtering of information.

9.4.12.IML.2: Evaluate digital sources for timeliness, accuracy, perspective, credibility of the source, and relevance of information, in media, data, or other resources (e.g., NJSLSA.W8, Social Studies Practice: Gathering and Evaluating Sources.

9.4.12.IML.3: Analyze data using tools and models to make valid and reliable claims, or to determine optimal design solutions (e.g., S-ID.B.6a., 8.1.12.DA.5, 7.1.IH.IPRET.8)

9.4.12.IML.4: Assess and critique the appropriateness and impact of existing data visualizations for an intended audience (e.g., S-ID.B.6b, HS-LS2-4).

9.4.12.IML.5: Evaluate, synthesize, and apply information on climate change from various sources appropriately (e.g.,

2.1.12.CHSS.6, S.IC.B.4, S.IC.B.6, 8.1.12.DA.1, 6.1.12.GeoHE.14.a, 7.1.AL.PRSNT.2).

9.4.12.IML.6: Use various types of media to produce and store information on climate change for different purposes and audiences with sensitivity to cultural, gender, and age diversity (e.g., NJSLSA.SL5).

9.4.12.IML.7: Develop an argument to support a claim regarding a current workplace or societal/ethical issue such as climate change (e.g., NJSLSA.W1, 7.1.AL.PRSNT.4).

9.4.12.IML.8: Evaluate media sources for point of view, bias, and motivations (e.g., NJSLSA.R6, 7.1.AL.IPRET.6).

9.4.12.IML.9: Analyze the decisions creators make to reveal explicit and implicit messages within information and media (e.g., 1.5.12acc.C2a, 7.1.IL.IPRET.4).

#### Technology Literacy

9.4.12.TL.1: Assess digital tools based on features such as accessibility options, capacities, and utility for accomplishing a specified task (e.g., W.11-12.6.).

9.4.12.TL.2: Generate data using formula-based calculations in a spreadsheet and draw conclusions about the data.

9.4.12.TL.3: Analyze the effectiveness of the process and quality of collaborative environments.

9.4.12.TL.4: Collaborate in online learning communities or social networks or virtual worlds to analyze and propose a resolution to a real-world problem (e.g., 7.1.AL.IPERS.6).

## **Career Ready Practices**

- Act as a responsible and contributing community members and employee
- Attend to financial well-being
- Consider the environmental, social and economic impacts of decisions
- Demonstrate creativity and innovation
- Utilize critical thinking to make sense of problems and persevere in solving them
- Model integrity, ethical leadership and effective management
- Plan education and career paths aligned to personal goals
- Use technology to enhance productivity increase collaboration and communicate effectively
- Work productively in teams while using cultural/global competence

## **Instructional Strategies**

- Academic vocabulary and language
- Accountable talk
- Adapting to learning styles/multiple intelligences
- Analysis of student work
- Cues, questions, activating prior knowledge
- Current events
- Direct instruction
- Discovery/Inquiry-based learning
- Document-based questions
- Effective questioning
- Field experience, field trip, or field study
- Flexible/strategic grouping
- Formative assessment process
- Guest speakers
- Hands-on learning
- Identifying similarities and differences
- Integration of content areas
- Lecture
- Modeling
- Nonlinguistic representations
- Note booking/journaling

- Peer teaching/collaboration
- Project-based learning
- Reinforcing effort and providing recognition
- Role play/simulations/drama
- Student goal setting
- Student self-assessment
- Summarizing and note taking
- Targeted feedback
- Word walls

## **Integrated Accommodations and Modifications**

Special Education/504	English Language Learners
Special Education/504 Adhere to all modifications and health concerns stated in each IEP. Give students a MENU option allowing students to pick assignments from different levels based on difficulty. Students have the option of learning the curriculum in their comfort level and challenge themselves for growth. Use the online reading software, which can revise the reading at the Lexile level to meet students at current reading level. Accommodating Instructional Strategies: Reading Aloud, Graphic Organizers, Reading Study Guides, one-on-one instruction, class website, Handouts, Definition List, Syllabus, Large Print, Outlines. Utilize speech to text resources.	English Language LearnersOnline word banksUse visuals whenever possible to support classroom instruction and classroom activities.Teacher modeling and written instructions for every assignment.SIOP Strategies:Adapted, taped, or highlighted text, Anticipation / Reaction Guides, Bilingual dictionaries, Classroom charts and posters to link prior learning to new learning Advance Organizers Videos, DVDs, stories, articles, books, pictures, or photographs, Cloze activities Mnemonic strategies, Concept definition maps Word sorts, Vocabulary flip books, Demonstration of lesson procedures, High-interest, low-readability texts, Incorporate listening, speaking, reading, and writing activities, Insert Method, Anticipation Guides Concept/Question Board, Interactive word walls, Jigsaw activities, Labeling Word knowledge self-assessment,, Word banks, Marginal notes Native language texts, Question Stems to elicit and share background experiences and promote higher-order thinking skills, Realia, manipulatives, props, photographs, illustrations, Rehearsal strategiesTeacher-prepared outlines, Text comprehension strategies (predicting, retelling. summarizing, etc.) QAR strategy Questioning the Author, Think-Alouds Thinking Maps and other graphic organizers, Trade books, Vocabulary Self-Collection Strategy (VSS), Personal dictionaries, Word generation activities, Note Taking (Three-Column, Cornell notes, etc.), Scaffolded Questions / Verbal scaffolding of student responses

Gifted and Talented	Students at Risk of Failure
Modified instructional strategies Socratic Seminar, Group Discussion, Think-Pair- Share, Individual Assignments graded on a more rigorous rubric,	Give students a MENU option allowing students to pick activities based on interest that address the objectives and standards of the unit.
Multimedia Projects, working with more primary source documents and completing Case Studies.	Modified Instructional Strategies, Graphic organizers, Readings.
Student led classroom instruction; also Project Based Learning.	Study Guides, small learning group instruction, class website (Google Classroom).
	Syllabus, inclusion of more visuals and films, Field Trips, Google Expeditions, Peer
	Support, one on one instruction
	Constant parental contact along with mandatory tutoring appointments
	Academic Contracts

## **Interdisciplinary Connections**

NJSLSA.R7. Integrate and evaluate content presented in diverse media and formats, including visually and quantitatively, as well as in words.

**NJSLSA.W6**. Use technology, including the Internet, to produce and publish writing and to interact and collaborate with others. **NJSLSA.W7**. Conduct short as well as more sustained research projects, utilizing an inquiry-based research process, based on focused questions, demonstrating understanding of the subject under investigation. NJSLSA.W8. Gather relevant information from multiple print and digital sources, assess the credibility and accuracy of each source, and integrate the information while avoiding plagiarism.

**NJSLSA.SL5**. Make strategic use of digital media and visual displays of data to express information and enhance understanding of presentations.

**SL.2.5**. Use multimedia; add drawings or other visual displays to stories or recounts of experiences when appropriate to clarify ideas, thoughts, and feelings.

ETS1.B: Developing Possible Solutions

Designs can be conveyed through sketches, drawings, or physical models. These representations are useful in communicating ideas for a problem's solutions to other people

6.1.2.Geo.GI.2: Use technology to understand the culture and physical characteristics of regions

**6.1.2.HistoryCC.1**: Use multiple sources to create a chronological sequence of events that describes how and why your community has changed over time

**6.3.2.GeoGI.2**: Collect data and consider sources from multiple perspectives to become informed about an environmental issue and identify possible solutions

**9.3.ST-SM.1** Apply science and mathematics to provide results, answers and algorithms for engineering and technological activities.

9.3.ST-SM.2 Apply science and mathematics concepts to the development of plans, processes and projects

that address real world problems.

**9.3.ST-SM.3** Analyze the impact that science and mathematics has on society.

9.3.ST-SM.4 Apply critical thinking skills to review information, explain statistical analysis, and to translate,

interpret and summarize research and statistical data.

**HS-PS1-1** Use the periodic table as a model to predict the relative properties of elements based on the patterns of electrons in the outermost energy level of atoms.

HS-PS1-2 Construct and revise an explanation for the outcome of a simple chemical reaction based on the outermost electron

states of atoms, trends in the periodic table, and knowledge of the patterns of chemical properties.

**HS-PS1-7** Use mathematical representations to support the claim that atoms, and therefore mass, are conserved during a chemical reaction.

**HS-ETS1-2** Design a solution to a complex real-world problem by breaking it down into smaller, more manageable problems that can be solved through engineering.

HS-ETS1-3 Evaluate a solution to a complex real-world problem based on prioritized criteria and trade-offs that account for a

range of constraints, including cost, safety, reliability, and aesthetics, as well as possible social, cultural, and environmental impacts.

## **Standards for Mathematical Practices**

Make sense of problems and persevere in solving them.

Reason abstractly and quantitatively.

Construct viable arguments and critique the reasoning of others.

Model with mathematics.

Use appropriate tools strategically.

Attend to precision.

Look for and make use of structure.

Look for and express regularity in repeated reasoning.

Unit 1	Hair and Scalp Properties (15 Days)	Grade(s)	10
Unit Plan Title:	Hair and Scalp Properties (15 Days)		
Unit Overview			
Cosmetologists should have a thorough understanding of the properties of the hair and scalp because you need to know how and why hair grows and how and why it falls out in order to be able to differentiate between normal and abnormal hair loss. Knowing what creates natural color and texture is a vital part of being able to offer a variety of chemical services to clients. Spotting an unhealthy scalp condition that could be harboring a communicable disease or even be causing permanent hair loss is a way to aid your client in caring for their scalp and hair's well-being.			
Essential Question(s)			
<ol> <li>How are side t</li> <li>How would yo</li> <li>How are polyp</li> </ol>	e bonds are there and what do they each do? onds formed and broken? u explain the process of keratinization? eptide chains connected? vo types of melanin responsible for natural hair color?		
Enduring Understandin	gs		
<ul> <li>weak physical side bond, broken by changes in pH such as strong alkaline or acidic solutions, and Disulfide bond—a strong chemical side bond, broken by permanent waves and hair relaxers</li> <li>Newly formed cells mature and fill up with keratin, move upward, lose their nucleus, and die</li> <li>Polypeptide chains are long chains of amino acids linked by peptide bonds</li> <li>Eumelanin consists of brown and black pigment and is the predominant pigment in black and brunette hair. Pheomelanin is the yellow to red pigment in natural blonde and red shades of hair</li> </ul>
