Virtual Meeting Discussion Norms

- Assume good intentions
- Monitor your airtime! Be succinct, concrete, and explicit when speaking
- Refrain from using cell phones or computers for checking email or sending text messages except during breaks. If there is a need to do anything on your phone, please step out of the meeting and turn your screen off.
- Please keep your video on. If you are uncomfortable with your background, please set a new background. If we were in person, you would need to be present throughout the presentation and your video being on accomplishes this goal.
- Keep yourself MUTED unless you are asking a question or providing a response. The feedback will cause your colleagues not to garner all important information.
- Listen to understand, and ask if you don't understand
- Wait until the person speaking is finished before talking
- No personal attacks on anyone. Don't take comments personally
